Company Profile:

Victora Industries is the flagship company of a leading Indian conglomerate with a turnover exceeding INR 11 Billion. The group has diversified interests across verticals such as the manufacture of sheet metal components, assemblies for the auto industry, elevator industry, white goods, as well as in the telecom and hospitality sectors. Established in 1972 by G S Banga, an acclaimed authority in the field of Tool Engineering and recipient of "Self-made Industrialist" Award from the President of India, the group has kept itself at the very forefront of technology ever since inception. Under the inspiring leadership of S. S. Banga and Satbir Singh Banga, our growth story is evident through our 11 state-of-the-art, IATF 1649 certified manufacturing facilities across the country today.

We attribute our success and edge over our peers to world-class infrastructure, a highly skilled workforce, process and system delivery adhering to global quality standards, wide-spectrum offerings and an unwavering commitment to customer satisfaction. We also engaged in Precision manufacturing techniques ranging from CNC Turning, milling and machining, precision drilling, boring and induction hardening are used to ensure the degree of consistent critical accuracy in complete sync with customer demands and specifications. Production runs ranging from one-offs to many hundred thousands are produced, irrespective of the product complexities, without any compromise on the precision standards. Operations are focused on producing high quality, cost-competitive products that are synchronous, lean, flexible and agile to the

customers' ever changing requirements. Witnessing year-on-year growth in turnover as well as product range, the company is continuously engaged in a pursuit of excellence.
